REQUEST FOR RECONSIDERATION
DECISION REGARDING REQUEST FOR
CERTIFICATE OF CORRECTION
UNDER § 1.322

ATTN: Decisions & Certificates of Correction Branch
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Pursuant to 37 CFR 1.322, Applicant submitted a Request For Certificate of Correction correcting typographical errors on April 1, 2005. In response thereto, the Patent Office denied the request to correct the errors in Column 4, lines 11 and 13, and issued a Certificate of Correction for Column 4, line 25, only.

Applicant respectfully traverses the decision of the Certificate of Correction Branch and asserts that the requested corrections should be made in a Certificate of Correction. In furtherance of this assertion, applicants submits that the changes were made in an Examiner's

JUL 18 2005

Amendment, which was included with the Notice of Allowability for the above application. A copy is enclosed herewith. More specifically, the Examiner makes the following amendments:

Claim 10, line 3: Delete "including solder bumps" and insert --"having solder bumps including source solder bumps and a gate solder bump"--.

Claim 10, line 4: Insert --"source and gate"-- between "the" and "solder".

The following is a marked-up of version of the final submitted "currently amended" Claim 10, lines 1-4, showing the Examiner's changes made in the Examiner's Amendment:

Claim 10. (currently amended) A chip device comprising:

a leadframe including source and gate connections;

a bumped die ~~including solder bumps~~ having solder bumps including source solder bumps and a gate solder bump on a frontside, the bumped die being attached to the leadframe such that the source and gate solder bumps contact the source and gate connections respectively;

Therefore Column 4, lines 11 & 13 were not printed in accordance with the record. Applicant's respectfully request a Certificate of Correction for the corrections. The desired corrections are set forth on the enclosed form PTO/SB/44.

It is believed that no fee is required for this Request For Certificate of Correction as the errors are the result of typographical mistakes made by the United States Patent and Trademark Office. However, if a fee is required, the Commissioner is authorized to charge said fee to the undersigned's Deposit Account No. 20-1430.

Respectfully submitted,

Patrick R. Jewik

DETAILED ACTION

Allowable Subject Matter

1. Claims 10-12 and 14-18 are allowed.

Examiner's Amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

A. Drawings:

The following changes to the drawings have been approved by the examiner and agreed upon by applicant:

- a. The reference numerals shown in all figures are not legible.
- b. The Fig. 1, 2 and 5 showing the copper clip, the bumped die and the solder paste respectively are not clear and are not of sufficient quality for publication.

In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

- B. Claim 10, line 3: Delete "including solder bumps" and insert — "having solder bumps including source solder bumps and a gate solder bump" —.
- C. Claim 10, line 4: Insert — "source and gate" — between "the" and "solder".

- D. Claim 10, line 4: Insert — “respectively” — after “connections”.
- E. Claim 10, line 6: Delete “a v-groove” and insert — “an elongated v-groove along an edge of the lead rail”.
- F. Claim 10, line 7: Delete “in the v-groove” and insert — “in the elongated v-groove along the edge of the lead rail”.
- G. Claim 10, line 8: Delete “v-groove” and insert — “elongated v-groove”.
- H. Claim 10, line 11: Delete “solder bumps” and insert — “source solder bumps”.
- I. Claim 17, line 2: Delete “v-groove” and insert — “elongated v-groove”.

Authorization for this examiner's amendment was given in a telephone interview with Patrick Jewik on 10-27-04.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

The references of record do not teach either singularly or in combination at least the limitations “a copper clip attached to a backside of the bumped die and having an edge; a lead rail including leads and an elongated v-groove along an edge of the lead rail, wherein the edge of the copper clip is in the elongated v-groove along the edge of the lead rail” and “apertures in the leadframe and being located under the die and being between the source solder bumps” in a leadframe device having a bumped die wherein

Art Unit: 2811

drain connections between a die with a lead rail are accomplished through a soldered copper clip.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nitin Parekh whose telephone number is 571-272-1663. The examiner can normally be reached on 09:00AM-05:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Eddie Lee can be reached on 571-272-1732. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9318.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-0956.
